

Oregon PDMP Registration

Providers and pharmacists may hold individual accounts and have linked delegates. Each individual needs to apply for access, account sharing is not allowed.

Delegates may be any staff member working with the provider or pharmacist, and there is no limit on delegates for a master account in Oregon.

1. Go to www.orpdmp.com
2. Click on PDMP User Access & Registration on the left column
3. Read the instructions and click on the “registration” link to begin
 - a. Use the username “newacct” and password “welcome” when prompted after clicking “registration”
 - b. Delegates: do not enter licensure numbers. Enter “delegate” from the drop down menu for the question “license type.” Delegates should also select a “practice setting/specialty” from the drop down menu.
4. Print the form and mail it, along with a photo copy of your government issued ID, to the address on the website.
5. PDMP staff will review the application. If approved for an account an email containing a user name, temporary password, and PIN will be sent. Instructions for accessing the database will be in a separate email.
6. Staff applying as delegates will receive an email when the account is activated. The provider or pharmacist for whom the delegate is under must then link the accounts.
