Re: Continuing Education in the New Year

Happy New Year! Welcome to 2020! The transition year for continuing education (CE) is now behind us. For this year (January 1, - December 31, 2020), pharmacists will need to complete 15 hours of ACPE accredited CE that is reported to CPE monitor. Up to three hours of CME credit will be accepted as long as it meets the requirements of Rule 213.02.

Need help tracking your CE progress? There's an app for that. Check out NABP's e-Profile app which ties into the CPE monitor. Logging into CPE Monitor directly from the website is still available as well. <https://dashboard.nabp.pharmacy/Login/Splash>

As you may have noticed with the last license renewal cycle, the Idaho Board no longer asks you to attest to having completed the requirements for continuing education upon license renewal. This is because the tie between the CE cycle and license renewal have been completely severed.

Speaking of license renewal, remember your license needs to be renewed by the last day of your birth month. Use "Verify a License" function on the Board of Pharmacy website to check the expiration of your license. <https://idbop.mylicense.com/verification/>

Licenses can now be printed directly from the licensing system.
